The Revitalisation

In June 2018 a joint venture between global investment firm KKR and New Zealand based Oyster Group purchased Central Park from Goodman. Over the past year we have brought a fresh approach to enhancement of the business park and are actively investing in improving the amenity and desirability for all our customers.

Plans include:

Construction has commenced for a new hospitality precinct within the business park. Enhanced offering will include conversion of car parks to a public recreational space including a range of food and beverage options, pop ups, digital screen, events mode, bbq zone, etc. This will be right next to new building 11.

Comprehensive rebranding, including new wayfinding signage.

Shared pedestrian and vehicle walkways; pedestrianising the centre and improving connectivity.
